CODLY360 · CREATORCONNECT · SCREEN AND DIALOG CATALOGUE

Every Screen and Popup in the App

Name, purpose, data and connections — from the first launch to the end of each user's journey.

Draft 1 · For Nikhil · Built from the Rules, Rights & Flows Handbook (Draft 2), the SOW, the README and the earlier design sets

153	125	28	124
screens in total	for the app and website	for the admin panel	dialogs, sheets and popups

0 How to read this catalogue

ITEM	MEANING
Screen ID	Letter for the module and a number, for example G09 = Applicant detail. The same ID is used in design files, tickets and code.
Dialog ID	DLG-41 is a popup in the app; DLG-A6 is a popup in the admin panel. Every dialog appears once in section 5 and is referenced from the screens that use it.
Roles	CR Creator · PR Professional · PO Podcaster · BR Brand · Guest = not logged in · Admin = staff (sub-role in brackets). "All" means the four app roles.
Standard states	Every list or data screen also has four states: **loading** (skeleton shapes, never a blank page), **empty** (a helpful message and a next step), **error** (plain words and Retry) and **offline** (banner; saved data stays visible where possible).
Leads to	Where the user can go next. Together these links make the full navigation map.
Platforms	The same screens run in the mobile app and the web app unless a row says otherwise. Admin screens (R) and public website pages (Q) are web only. Rules named here (R-AUTH-01…) are defined in the Handbook.

△ partly: Guests see only a limited profile preview; Brands see only company and verification parts of C, no portfolio (F), post but do not apply (G), send hire invites but do not apply (H), and use the community with a promotion limit (J).

1.2 Main navigation (recommended; confirm with the client)

WHO	BOTTOM TABS ON MOBILE (TOP MENU ON WEB)	REACHED FROM OTHER PLACES
Creator, Professional, Podcaster	**Home** (D01–D03) · **Discover** (E01, G01) · **Community** (J01) · **Inbox** (I01) · **Me** (profile, portfolio F01, applications H02, settings N01)	Notifications bell on Home. Assignments you posted (G04) from Me or the + button. Plans and referrals from Me.
Brand	**Home** (D04) · **Discover** (E01) · **Assignments** (G04) · **Inbox** (I01) · **Me** (company, verification, plan, settings)	Community from Home shortcut and Me. Invites (H05, H07) from Assignments.
Admin	Left menu: Dashboard · Users · Verification · Moderation (reports, content, reviews) · Disputes · Finance (plans, payments, refunds) · Growth (referrals, broadcasts) · Settings (cities, categories, limits, admins, audit)	Menu items show only what the admin's sub-roles allow.

2 Screens, module by module

For each screen: what it is for (2–3 lines), the data it shows and handles, the dialogs and states it uses, and where it leads.

A Launch and onboarding 3 screens

First minute of the app. Nothing here needs an account.

SCREEN	WHAT IT IS FOR	DATA IT SHOWS AND HANDLES	DIALOGS, POPUPS AND STATES	LEADS TO
A01 Splash All	Shows the brand while the app checks the saved login, app version and whether onboarding was already seen.	Saved session, app version, onboarding-done flag (stored on the device).	DLG-11 force update · DLG-10 no network	A02 on first launch · B06 or a Home screen when logged in
A02 Onboarding (3 slides) Guest	Explains the product in three swipes: create and connect, discover collaborators, find work and get hired.	Static copy, slide position. "Seen" flag saved on the device so it shows once.	Skip and Next actions	A03 · B06 ("Log in" link)
A03 Account type selection Guest	User chooses Creator, Professional, Podcaster or Brand. This choice decides Home, discovery and rights for the whole account.	Four role cards (title, description, icon). Chosen role is held until sign-up finishes, then saved by the server.	Continue stays disabled until a card is chosen	B01

B Authentication and account access 11 screens

Sign-up, login, recovery and the blocked-account screen. Rules: R-AUTH-01 to -10.

SCREEN	WHAT IT IS FOR	DATA IT SHOWS AND HANDLES	DIALOGS, POPUPS AND STATES	LEADS TO
B01 Register with mobile Guest	Starts sign-up with an Indian mobile number. Offers email and Google as alternatives.	Country code +91, 10-digit number, chosen role. Inline validation, no system alerts.	DLG-01 account exists · DLG-04 under 18	B02 · B03 · B05 · B06
B02 OTP verification Guest	Confirms the mobile number with a 6-digit code.	Masked number, 6 boxes (auto-advance, paste), 30-second resend timer, 5-minute validity, attempt counter.	DLG-03 too many attempts · inline wrong/expired code	B09
B03 Register with email Guest	Sign-up with email and password.	Email, password, confirm password, live strength meter and rule checklist (8 characters, number, special character).	DLG-01 account exists	B04
B04 Email verification pending Guest	Tells the user to open the link sent to their email (valid 24 hours).	Masked email, resend with cooldown, change-email action.	Resend confirmation toast	B09 after the link is opened
B05 Google sign-in handoff Guest	Passes the user to Google's own consent screen and handles the result.	Result: success, cancelled, failed. New or existing account flag.	DLG-01 (existing account) · failure message	B09 (new) · Home (existing)
B06 Login Guest	Returning users sign in with email or mobile plus password, or Google.	Email or mobile, password, inline "incorrect details", attempts left.	DLG-05 suspended notice · DLG-02 after expiry	Home by role · B07 · A03
B07 Forgot password Guest	Sends a reset link to the registered email.	Email, success message with resend.	Standard error	B08 (from email) · B06
B08 Reset password Guest	Sets a new password from the emailed link.	New and confirm password, rule checklist, link-expired state.	Success state	B06
B09 Age and consent Guest	Confirms the person is 18+ and accepts Terms and Privacy before the account is created.	Date of birth, Terms and Privacy checkboxes, optional marketing consent. Under-18 is blocked.	DLG-04 under 18	C01
B10 Account blocked notice All	Replaces Home when status is SUSPENDED or DEACTIVATED. Explains what happens next.	Status, reason, end date if timed, appeal or reactivate action.	DLG-99 appeal · DLG-92 re-authenticate	O03 · B11 · B06
B11 Reactivate account All	Lets a deactivated user come back.	Account name, confirm with OTP or password.	DLG-92	Home by role

C Profile setup, social accounts and verification 15 screens

Post-onboarding profile completion. Only fields still missing are asked. Rules: R-PROF, R-VER.

SCREEN	WHAT IT IS FOR	DATA IT SHOWS AND HANDLES	DIALOGS, POPUPS AND STATES	LEADS TO
C01 Profile completion overview All	Checklist of what is done and what is missing for your role, with a percentage. Reaching 100% of required fields gives level L1.	Sections per role with status (done, needs attention, not started), % complete, level progress.	DLG-20 profile-incomplete nudge	C02 to C08 · C12
C02 Basic information All	Photo, display name, bio, city and languages.	Name, photo (media upload), bio up to 500 characters, city from list (change once per 30 days), languages.	DLG-12 photo source · DLG-13 city · DLG-14 languages · DLG-07 discard · DLG-94 city limit	C01
C03 Category and skills CR PR PO	Pick category, subcategory and skills so others can find you.	Category tree from the server, skills with level, maximum skills allowed.	DLG-14 multi-select · DLG-07	C01
C04 Creator details CR	Rates, availability and what kind of content you make.	Rate range with unit (project, post, hour) in INR, availability, content types.	DLG-07	C01
C05 Professional details PR	Professional type, experience, rate and availability.	Type (editor, videographer…), years of experience, rate range and unit, availability, tools.	DLG-07	C01
C06 Podcast details PO	Show details so guests and editors can find you.	Show name, category, description, platform links, episode frequency, languages.	DLG-07	C01
C07 Company details BR	Business information for creators and for verification.	Company name, description, business category, city, website, team size, GST number (optional).	DLG-07	C01 · C12
C08 Social accounts CR PR PO	Lists supported platforms and each connection status.	Platform list from the backend; per platform: not connected, connected, error, verified.	DLG-15 remove account	C09 · C10
C09 Connect a social account CR PR PO	Hands off to the platform's own authorisation, or a code-in-bio check where the platform has no sign-in.	Platform, progress, result.	DLG-08 permission explainer · cancel	C10 · C11
C10 Social account detail CR PR PO	Shows what is linked and its verification state.	Handle, URL, follower count (only if the platform returns it), last synced, status. Refresh and disconnect.	DLG-15	C08 · C13
C11 Social connection error CR PR PO	Explains why connecting failed and offers retry.	Error type: cancelled, expired, unsupported account, rate limit, network.	Retry	C09
C12 Verification centre All	One place for verification status and the next step.	Status, badge preview, what L2 unlocks, attempt history (max 3 in 30 days).	DLG-21 verification-required gate	C13 · C14
C13 Verification request All	Collects what the admin needs. Creators and podcasters: a linked social account. Brands: business details and documents.	Chosen social account, or legal name, registration or GST number, website or domain email, authorised person, private document uploads.	DLG-31 file source · DLG-32 upload · DLG-16 confirm submit	C14

SCREEN	WHAT IT IS FOR	DATA IT SHOWS AND HANDLES	DIALOGS, POPUPS AND STATES	LEADS TO
C14 Verification result All	Shows the admin decision.	Approved: badge and level. Rejected or changes needed: reason from a list plus note, resubmit button.	DLG-17 result popup	C12
C15 Add another role CR PR PO	Adds a second role to the same account (not for Brand).	Role choice, check for active work, new empty profile.	DLG-18 confirm	C02 for the new role

D Home and notifications 5 screens

One shared Home shell; the middle sections change with the role. The first screen after onboarding.

SCREEN	WHAT IT IS FOR	DATA IT SHOWS AND HANDLES	DIALOGS, POPUPS AND STATES	LEADS TO
D01 Home — Creator CR	Starting point: next profile step, recommended assignments, brands and professionals to meet, recent activity.	Completion card, recommended assignments (rule-based), activity feed, unread counts, city feed teaser.	Standard states · DLG-20 nudge	E01 · G03 · J01 · D05
D02 Home — Professional PR	Same shell with portfolio prompts and assignments that match your skills and city.	As D01 plus portfolio count and prompt to add work.	Standard states	E01 · G03 · F01
D03 Home — Podcaster PO	Same shell with suggested editors, sound engineers and guests.	Suggested professionals and creators, own assignments.	Standard states	E01 · G04 · J01
D04 Home — Brand BR	Verification card, assignments overview and creators worth a look.	Verification state, assignments by status, new applicants, recommended creators.	DLG-21 verification gate · Standard states	G04 · G08 · E01
D05 Notification centre All	List of every alert with a link to the right screen.	Type, title, text, time, read state, target screen. Filter: all or unread. Kept 90 days.	Mark-all-read toast · Standard states	Target screen of each item

E Discovery, search and public profiles 12 screens

Finding people. Who can see whom follows the role-pair table. Rules: R-DISC-01 to -04.

SCREEN	WHAT IT IS FOR	DATA IT SHOWS AND HANDLES	DIALOGS, POPUPS AND STATES	LEADS TO
E01 Discover home All	Role-aware discovery with tabs for the kinds of people you may find, categories and recommendations.	Role tabs, category cards with counts, recommended profiles, city chips.	Standard states	E02 · E04 · E07
E02 Categories and subcategories All	Browse by category tree.	Category (icon, profile count) and its subcategories.	Standard states	E03
E03 Category results All	Profiles inside one category or subcategory.	Profile cards, count, active filter chips.	DLG-22 filters · DLG-23 sort · DLG-24 clear filters	E07

SCREEN	WHAT IT IS FOR	DATA IT SHOWS AND HANDLES	DIALOGS, POPUPS AND STATES	LEADS TO
E04 Search All	Search entry with recent searches and popular categories.	Query, recent searches (if approved), popular categories.	DLG-25 clear history	E05 · E06
E05 Search suggestions All	Live suggestions while typing.	Debounced suggestions: profiles, skills, categories.	Loading and no-suggestion states	E06 · E07
E06 Search results All	Matching profiles with filters and sort.	Profile cards (photo, name, role, city, rating, rate range, badge, save), result count, cursor pagination.	DLG-22 · DLG-23 · DLG-24 · empty-search and error states	E07
E07 Public profile All	Another person's profile, About tab, with the actions you may take.	Photo, name, role, verified badge, city, bio, skills, languages, availability, rate range, public social links, rating. Actions: Message, Invite, Save, Share, Report.	DLG-56 say hi · DLG-27 share · DLG-26 external link · DLG-29 block · DLG-95 report	E08 · E09 · H04 · I07
E08 Public profile — Portfolio tab All	Read-only samples of their work.	Item thumbnails, titles, short text.	Standard states	E10
E09 Public profile — Reviews tab All	Ratings and reviews received.	Average (after 3 reviews), review list with replies.	DLG-95 report review	—
E10 Portfolio item view All	Full view of one sample.	Title, description, media gallery, link.	DLG-26 external link	E08
E11 Profile unavailable All	Shown when a profile is private, deactivated or missing.	Generic message only; never says which case.	—	E01
E12 Saved profiles All	Bookmarked people (if approved, D10).	Saved list, remove.	Standard states	E07

F Own portfolio 3 screens

Where workers show their best samples. Not shown to Brands.

SCREEN	WHAT IT IS FOR	DATA IT SHOWS AND HANDLES	DIALOGS, POPUPS AND STATES	LEADS TO
F01 My portfolio CR PR PO	Manage your work samples.	Item list with order, media status (processing, ready), count against plan limit.	DLG-34 delete · DLG-36 limit reached	F02
F02 Add or edit portfolio item CR PR PO	Create or change one item.	Title, description, links, media attachments (only ready media), display order.	DLG-31 source · DLG-32 upload · DLG-33 failed · DLG-07 discard	F01
F03 Upload progress All	Shared screen or sheet showing every upload.	File name, progress, status: uploading, scanning, ready, rejected.	DLG-32 cancel · DLG-33 retry	Caller screen

G Assignments and projects 15 screens

The poster side (Brand, Creator, Podcaster) and the worker side meet here. Rules: R-ASG-01 to -10.

SCREEN	WHAT IT IS FOR	DATA IT SHOWS AND HANDLES	DIALOGS, POPUPS AND STATES	LEADS TO
G01 Browse assignments CR PR PO	Public briefs that match your skills and city.	Cards: title, poster and badge, budget, deadline, city or remote, applicant count, match tags.	DLG-22 filters · Standard states	G03
G02 Assignment search and filters CR PR PO	Search by keyword and filter by category, skill, city, budget, deadline.	Query, applied filters, results.	DLG-22 · DLG-23	G03
G03 Assignment details All	Full brief with the right action for the viewer: Apply (worker) or Manage (owner).	Title, poster, brief, deliverables, skills, budget, deadline, city, status, applicant count, your application state.	DLG-20 nudge · DLG-49 quota · DLG-51 already applied · DLG-95 report	H01 · G07
G04 My assignments CR PO BR	Everything you posted, grouped by status.	Tabs: Draft, Published, In progress, Completed, Closed. Counts and plan quota meter.	DLG-36 limit reached · Standard states	G05 · G07
G05 Create or edit assignment CR PO BR	Multi-step form: basics, requirements, budget and deadline, review.	Title, brief (50+ characters), category, skills, deliverables, budget, deadline, city or remote, attachments.	DLG-07 discard · DLG-39 delete draft · DLG-40 edit-after-publish warning · DLG-31 file source	G06
G06 Preview and publish CR PO BR	Shows how the assignment will look and checks the rules before publishing.	Preview, checklist of required fields, quota use.	DLG-35 publish confirm · DLG-36 · DLG-21 verification gate	G07
G07 Manage assignment CR PO BR	Owner control page.	Status, applicant counts by status, edit, close, share, activity log.	DLG-37 close · DLG-38 cancel · DLG-40	G08 · G10
G08 Applicants CR PO BR	Compare and sort people who applied.	List: photo, name, badge, rating, quoted rate, status. Filters by status.	Standard states	G09
G09 Applicant detail CR PO BR	Read the proposal, open profile and portfolio, then decide.	Proposal, quoted rate, attachments, status history, profile summary. Actions: Shortlist, Chat, Select, Reject.	DLG-41 select · DLG-42 reject	I04 · G10
G10 Project workspace Participants	One page for the work after selection.	Status timeline, brief, agreed budget and deadline, shared files, link to chat, delivery state, revisions used.	DLG-47 cancel project · DLG-43 · DLG-44 · DLG-45 · DLG-46	G11 · G12 · I04 · G14
G11 Deliver work Worker	Attach files or links and mark the work delivered.	Files, note, checklist of deliverables.	DLG-31 · DLG-32 · DLG-43 confirm	G10
G12 Review delivery Poster	Approve or ask for changes within 7 days.	Delivered files, note, days left, revisions used (of 2).	DLG-44 request changes · DLG-45 approve	G13
G13 Project completed Participants	Summary after completion and a nudge to review.	Dates, agreed budget, review window, “hire again” for the poster.	DLG-76 review prompt	K01 · G04

SCREEN	WHAT IT IS FOR	DATA IT SHOWS AND HANDLES	DIALOGS, POPUPS AND STATES	LEADS TO
G14 Open a dispute Participants	Raises a problem to admins.	Reason list, description, evidence uploads.	DLG-46 confirm	G15
G15 Dispute status Participants	Follows the admin case to a decision.	Status, admin messages, decision text.	Standard states	G10

H Applications and invites 7 screens

How people respond to briefs and how a poster approaches one person. Rules: R-APP, R-INV.

SCREEN	WHAT IT IS FOR	DATA IT SHOWS AND HANDLES	DIALOGS, POPUPS AND STATES	LEADS TO
H01 Apply to assignment CR PR PO	Short proposal with samples.	Proposal 50–1,000 characters, optional quoted rate, up to 3 attachments or portfolio links, applications left this month.	DLG-48 sent · DLG-49 quota · DLG-51 already applied · DLG-20 nudge	H02
H02 My applications CR PR PO	All applications by status.	Tabs: Active, Shortlisted, Accepted, Closed. Assignment, poster, status, last update.	DLG-50 withdraw · Standard states	H03
H03 Application detail CR PR PO	Status history and the next action.	Proposal, status timeline with reasons, link to chat.	DLG-50	G03 · I04
H04 Send invite or collaboration request CR PR PO BR	Writes a private brief to one person. Brand, Creator and Podcaster can hire; peers can send collaboration requests.	Recipient card, type (hire or collab), title, description, budget, deadline, daily invite quota.	DLG-52 sent · DLG-36 limit reached · DLG-21 gate	H07
H05 Invites inbox All	Invites you received.	Sender, brief title, expiry countdown, status.	Standard states	H06
H06 Invite detail All	Read the brief and decide.	Full brief, sender profile summary, expiry.	DLG-53 accept · DLG-54 decline	G10 after accepting
H07 Sent invites CR PO BR	Track invites you sent.	Status per invite (sent, viewed, accepted, declined, expired).	DLG-55 cancel	H06

I Messaging 7 screens

Message requests first, chat after acceptance. Rules: R-MSG-01 to -09.

SCREEN	WHAT IT IS FOR	DATA IT SHOWS AND HANDLES	DIALOGS, POPUPS AND STATES	LEADS TO
I01 Inbox All	Conversations list with two tabs.	Tabs: Chats and Requests (with count). Last message, unread count, linked-project tag.	Standard states	I04 · I02

SCREEN	WHAT IT IS FOR	DATA IT SHOWS AND HANDLES	DIALOGS, POPUPS AND STATES	LEADS TO
I02 **Message requests** All	People who want to talk and are not yet accepted.	Sender card, first message (up to 300 characters), where it came from (profile, community post...), expiry.	DLG-59 decline	I03
I03 **Request detail** All	Read the request, then accept or decline.	Sender profile summary, full message, origin, days left.	DLG-59 · DLG-29 block · DLG-95 report	I04
I04 **Chat** All	Real-time conversation.	Messages (text and files), sent, delivered and read states, typing, linked-assignment banner, failed-send state.	DLG-60 · DLG-61 · DLG-62 · DLG-63 · DLG-65 turn into project · DLG-66 · DLG-58	I05 · I06
I05 **Attachment viewer** All	Open images, PDFs and video.	File, sender, time, download.	DLG-63 unsupported	I04
I06 **Conversation info** All	Profile, mute, block, report and shared files.	Participant card, linked project, shared media, mute state.	DLG-64 mute · DLG-29 · DLG-95	E07
I07 **Support chat** All	Talk to support admins.	Ticket thread, status, attachments.	Standard states	N09

J City community 10 screens

Local feed for each hub. Extra scope, see D7. Rules: R-COM-01 to -07.

SCREEN	WHAT IT IS FOR	DATA IT SHOWS AND HANDLES	DIALOGS, POPUPS AND STATES	LEADS TO
J01 **City community home** All	Feed for your home hub.	Hub name and members, posts (type, author badge, text, reactions, comment count), pinned post, create button.	DLG-71 hub picker · DLG-75 first-post rules · Standard states	J05 · J06
J02 **Opportunities** All	Local gigs and calls.	Opportunity cards with budget, date, Apply button.	DLG-73 convert (author) · Standard states	J05 · H01
J03 **Events** All	Upcoming events with RSVP.	Date, time, place text, host, going count.	DLG-72 RSVP	J07
J04 **Members** All	Find people in your hub.	Filters: role, category, skill. Member cards with Say hi.	DLG-56	E07
J05 **Post detail** All	Full post and its comments.	Body, media, reactions, comments (reply, delete own), report.	DLG-69 delete · DLG-70 hidden notice · DLG-95 report	J01
J06 **Create post** All	Write a post of a chosen type.	Type, title, body, media, event fields, city, brand promo counter.	DLG-67 type · DLG-68 discard · DLG-74 promo limit · DLG-75	J01
J07 **Event detail** All	Event page with RSVP and reminder.	Title, time, place, host, going count, comments.	DLG-72	J01

SCREEN	WHAT IT IS FOR	DATA IT SHOWS AND HANDLES	DIALOGS, POPUPS AND STATES	LEADS TO
J08 **Hubs and following** All	Choose which hubs you follow.	Home hub (locked), followed hubs, limit meter, hub search.	DLG-71 limit	J01
J09 **Hub rules and about** All	Rules, how to report, moderators.	Rules text, moderator list, member count.	—	J01
J10 **Moderator tools (later)** City Moderator	Review hidden posts in your hub.	Queue of hidden posts with reports and history.	DLG-A7 hide or restore reason	J05

K Reviews 3 screens

Double-blind reviews after a completed project. Rules: R-REV-01 to -06.

SCREEN	WHAT IT IS FOR	DATA IT SHOWS AND HANDLES	DIALOGS, POPUPS AND STATES	LEADS TO
K01 **Write review** All	Rate the other person after a completed project.	Project summary, 1–5 stars, text up to 1,000 characters, days left in the window, double-blind note.	DLG-76 submitted	G13
K02 **My reviews** All	Reviews received and given.	Lists, average rating, hidden or revealed state.	Standard states	K03
K03 **Review detail and reply** All	Read a review and reply once.	Review text, rating, reply box.	DLG-77 reply · DLG-95 report	K02

L Membership and payments 7 screens

Plans, checkout and invoices through Razorpay. Rules: R-PAY-01 to -06.

SCREEN	WHAT IT IS FOR	DATA IT SHOWS AND HANDLES	DIALOGS, POPUPS AND STATES	LEADS TO
L01 **Plans and benefits** All	Compare Free, Premium and Brand plans.	Plans, prices, quotas, current plan.	DLG-84 downgrade warning	L02
L02 **Checkout** All	Order summary, then the Razorpay payment sheet.	Plan, price, tax note, payment methods (UPI, cards, net banking, wallets).	DLG-79 Razorpay · DLG-80 processing	L03
L03 **Payment result** All	Success, failed or pending.	Result, receipt id, what unlocked.	DLG-81 failed · DLG-82 success	L04
L04 **Subscription** All	Current plan and renewal.	Plan, period dates, status (active, expiring, grace, payment failed), usage against quotas.	DLG-83 cancel · DLG-84	L05
L05 **Payment history** All	Past payments and invoices.	Date, item, amount, status, invoice download.	DLG-85 refund	L07

SCREEN	WHAT IT IS FOR	DATA IT SHOWS AND HANDLES	DIALOGS, POPUPS AND STATES	LEADS TO
L06 **Boost my profile** All	Buys a “Featured” slot.	Boost options, dates, preview of how it appears.	DLG-86 confirm	L03
L07 **Refund request** All	Ask for a refund inside the policy window.	Payment, reason, status.	DLG-85	L05

M Referrals 2 screens

Rules: R-REF-01 to -03.

SCREEN	WHAT IT IS FOR	DATA IT SHOWS AND HANDLES	DIALOGS, POPUPS AND STATES	LEADS TO
M01 **Referral home** All	Your code, share link and summary.	Code, link, people referred, qualified, rewards earned.	DLG-87 share	M02
M02 **Referral history** All	Each referral and its reward.	Status per person, reward state.	Standard states	—

N Settings and account 13 screens

Everything about the user’s own account. Rules: R-AUTH, R-PROF, R-NOT.

SCREEN	WHAT IT IS FOR	DATA IT SHOWS AND HANDLES	DIALOGS, POPUPS AND STATES	LEADS TO
N01 **Settings home** All	Entry point for all account options.	Section list, app version.	—	N02 to N13
N02 **Account details** All	Change email, phone or password.	Masked email and phone, change flows with OTP or password check.	DLG-92 re-authenticate	N01
N03 **Notification preferences** All	Choose push and email per topic.	Topic switches; locked topics (security, payment, policy) shown as always on; quiet hours.	DLG-08 push permission · DLG-09 permission denied	N01

3 How the modules connect

FROM	TO	TRIGGER AND WHAT TRAVELS WITH THE USER
B Authentication	C Profile setup	Account created → L0. Role chosen in A03 follows the user, so the right profile type is created.
C Profile setup	D Home	Completion % and verification state show on Home as the next step.
C Verification	R Admin	Request enters the verification queue (R05); the decision returns as a notification and a badge.
D Home / E Discovery	E07 Public profile	Tapping any person card opens their profile. Actions on it start G, H or I flows.
E07 Public profile	H04 Invite · I Messaging	“Invite” sends a private brief (H04). “Message” sends a request (DLG-56) that lands in the other person’s Requests tab (I02).
G Assignments	H Applications	Worker taps Apply (H01); poster sees it in Applicants (G08). Status changes notify both sides.
G09 / H03 / H06	I04 Chat	Once an application or invite exists, chat opens without a request.
G09 Select or H06 Accept	G10 Project workspace	One atomic action starts the project; other applicants are told the role is filled.
G10 / G13	K Reviews	After completion both sides get a 14-day review window.
G10	G14 → R14 Admin	A dispute moves the project and its chat to the Operations queue.
J Community	I Messaging · H Applications · G Assignments	“Say hi” starts a request; “Apply” on an opportunity creates an application; “Convert” turns a post into an assignment.
Any screen	O01 Report → R09 Admin	Report goes to the Moderator queue; the outcome returns as a notice (O03) and a notification.
L Membership	Quotas everywhere	Plan limits control G (active assignments), H (applications, invites), I (requests), F (portfolio items), J (followed hubs).

FROM	TO	TRIGGER AND WHAT TRAVELS WITH THE USER
D05 Notifications	Any screen	Every notification carries a deep link to the exact screen and record.

4 End-to-end journeys by screen

Each chain is the path of one person. "→" means the user moves to the next screen. Popups are written in grey.

New Creator

DLG-A23	**Revoke reward** Dialog	R18	Reason; user is notified.	Revoke · Cancel
DLG-A24	**Edit category or skill** Dialog	R21	Name, parent, order, active switch.	Save · Cancel

6 Design notes for the whole app

- **One component set.** Cards, chips, badges, buttons, inputs, sheets and skeletons come from the design system already approved (colour tokens, Archivo plus italic serif accent, pill buttons, 28 px card radius).
- **Same screen, different role.** Home, Public profile, Assignment details and Chat are one screen each, with sections and actions switched by role, level and plan. They are not copied per role.
- **Gates explain themselves.** When a rule blocks an action (profile incomplete, not verified, quota used), a sheet says what is missing and offers the fix in one tap.
- **Two screens to design first for the review meeting:** E07 Public profile and G09 Applicant detail. They show the most role-based behaviour.
- **Not yet designed:** everything from Home onward except the onboarding and authentication set, the Home and profile completion set, and the discovery set already made. Order of design follows the build order in the Handbook (section 12.3).

> **OPEN ITEMS THAT CHANGE THIS LIST**
>
> D7 (city communities in scope) removes or keeps module J. D8 (brand teams) keeps or drops module P. D9 (escrow) would add payment screens for money between users. D10 (saved profiles and recent searches) keeps or drops E12 and part of E04. The counts on page 1 update when these are decided.
